

Household Hazardous Waste Collection Program January thru June 2009

**Household Hazardous Waste Collection Sites
will take ALL Household Hazardous and Universal Waste**

Before transporting waste to the collection event or facility, please use this checklist to make sure you have done the following:

- | | |
|--|---|
| <ul style="list-style-type: none"> <input type="checkbox"/> Have I used up every product to the fullest extent possible? <input type="checkbox"/> Have I removed all valuables, as well as, all other items that can be mistaken as hazardous and universal waste discards? <input type="checkbox"/> Have I offered good, usable products I can't use to my neighbor, family or friends? <input type="checkbox"/> Have I kept the amount of chemical waste to less than 5 gallons or 50 pounds for transportation? (State Law maximum transportation limitation.) <input type="checkbox"/> Are any of the containers leaking? (If they are, place them in a container or material that will not allow the leak to spread and place securely in the vehicle for safe transport.) | <ul style="list-style-type: none"> <input type="checkbox"/> Is the waste in its original container, or is it properly labeled as to the contents? (The contents of the container must be the same as stated on the label. If not, cover up the label and write the name of its contents.) <input type="checkbox"/> Are the items placed in a sturdy container, such as cardboard or wooden box, for transporting? (Wrap glass bottles in newspaper to prevent breakage.) Containers with flammable liquid will not be returned. <input type="checkbox"/> Is the box placed in the trunk of your car or in the bed of your pickup truck and secured to prevent movement? (Keep items away from passengers.) |
|--|---|

Follow directions once you reach the event site. You will be asked to turn off your motor and stay in your vehicle. The site staff will unload the material from your vehicle. NOTE: The program is not responsible for lost or missing items from your vehicle.

THIS EVENT IS FOR RESIDENTIAL USE ONLY. PHOTO DOCUMENTATION WILL BE MADE OF EXCESSIVE OR SUSPECTED NON-RESIDENTIAL LOADS COMING TO EVENT.

**The following waste CANNOT be accepted at ANY Riverside County HHW collection facility:
Ammunition, Appliances, Asbestos or other Remediation Waste, Compressed Gas Cylinders greater than 40 pounds,
Explosives, Infectious or Medical Waste other than Home-Generated Sharps, Radioactive Waste,
Non-Residentially Generated Waste, Waste Generated Outside of Riverside County.**

If you have any of the above wastes please call (951) 486-3200 for assistance.

Proper Disposal of Medication and Sharps

Most medications are not considered hazardous waste and can be disposed of in regular trash. Remove personal information from containers before disposal.

Liquid.....Empty liquid medication onto absorbent paper towels or rags and throw IN TRASH.

Pill.....Crush pills, mix with coffee grounds or kitty litter, and dispose of mixture IN TRASH.

Inhaler.....Empty container, expel propellant, and toss empty cylinder IN TRASH.

Sharps/Needles.....Must be placed in a secure approved sharps container and brought to a Household Hazardous Waste collection for disposal. FREE Approved containers are available while supply lasts. If a container is not available, put sharps in rigid plastic jug (bleach bottle), tighten lid, secure with tape, and place label "SHARPS/NEEDLES" or "BIOHAZARD".

FREE labels are available at the HHW collections or by calling (951) 486-3200.
ALWAYS BRING SHARPS TO HHW PERMANENT FACILITY OR TEMPORARY EVENT.

Universal Waste

The following items can't be tossed in the trash. They contain harmful chemicals and need to be disposed of properly through the Household Hazardous Waste Program (see front schedule).

- **Common Batteries:** AA, AAA, C & D cell and button batteries (e.g. hearing aid & watch batteries). Automotive type batteries are not Universal Waste and are regulated under a different law.
- **Fluorescent Tubes, Bulbs and other Mercury-containing Lamps:** fluorescent light tubes and bulbs, High Intensity Discharge (HID), metal halide, sodium and neon bulbs.
- **Electronic Devices** - TV's, computer monitors, computers, printers, VCR's, cell phones, telephones, radios, and microwave ovens.
- **Non-empty Aerosol Cans** that contain hazardous materials (labeled toxic, flammable, or corrosive).

Storm Water Pollution Prevention - ONLY RAIN DOWN THE STORM DRAIN

What is the #1 reason creeks, rivers, and lakes get dirty?

It's from all types of pollutants that flow into storm drains then make their way to your favorite water recreational facility. The storm drain system is designed to prevent flooding and does not connect to a treatment facility.

Call **1-800-506-2555** to report storm drain disposal or obtain more information.
