Definition

Appliances include refrigerators, freezers, clothes dryers, washing machines, dishwashers, microwave ovens, ranges/ovens, furnaces, hot water heaters, and air conditioners. Also included in this category are small appliances powered by gasoline/other fuels including lawn mowers, edgers, leaf blowers, etc.

What is hazardous in appliances?

Many appliances contain materials that are hazardous which must be removed by the Department prior to crushing for recycling or landfilling. Materials that must be removed include refrigerants, polychlorinated biphenyls (PCBs) in capacitors, mercury (in switches), and oil (in refrigerator compressors and washing machines). The Department is a Certified Appliance Recycler approved by the State for appliance recycling.

Special Conditions

Appliances are accepted at Riverside County landfills only when placed by the customer in designated areas as directed by site personnel. Appliances may not be delivered comingled with other solid waste. Customers who repeatedly contaminate their waste loads with commingled appliances may be banned from the site.

Riverside County Landfill Charges

Appliance disposal is charged at the routine refuse rate. For the current fee schedule please visit the County's website at http://www.rivcowm.org/opencms/landfill_info/landfill_fees.html
